# EDITORIAL

The thought of Alumni Magazine came to us some time before the Annual EE Dept. Alumni Event Sampark 2021. This was going to be the first ever edition of the magazine so we were very hyped up for its successful publishing. We wanted to make it interesting as well as memorable for both students and alumni. Till date eight batches have passed out and our aim is to expand the Alumni Base year by year. And by far our alumni have achieved many feats for us to boast.

Many of the achievements of our alumni serve as benchmark for students. Every student would like to know about how they achieved it. They all will be having so many doubts regarding what to do after college?, the career guidance was provided by our eminent alumni guest speakers which addressed the students' dilemma regarding life after graduation. Insights were provided for cracking exams like CAT, GATE, GRE, getting Admissions Abroad from the alumni who have achieved remarkable feats (contact details of guest speakers have been provided later).

Also, for Alumni to stay informed about current activities in the institute, we have come with the Institute Insights article.

The magazine contains glimpses from some of our cultural, technical and sports events as well as our very first departmental Alumni Meet 2021: Sampark. We were really happy to host our beloved alumni this year through the online meet. With participation from each class since the inception of the department on a shorter notice, the event was a huge success.

We have put a lot of effort to make this magazine as enjoyable & informative as possible, as this is the very first edition there is always scope for improvement. We are delighted to put forth this edition of the magazine in front of the RCCIIT EE Community. We hope you will enjoy reading the articles.

**Atria Ghosh**  
**Ankita Banerjee**  
Editors,  
EE Alumni Magazine  
Class of 2021

At the onset I would like to express my sincere thanks to the Dept. of Electrical Engg., RCCIIT for so nicely organizing the Alumni Meet **Sampark-2021** on 30.05.2021. We were overwhelmed by the participation of a good number of Alumni including some from the first graduating batch of EE. The memories, experiences and thoughts shared by the EE Alumnus Tanmoy, Kanak, Priyam and Nilanjan were not only a delight and encouragement for the junior students but also for us.

It gives us immense pleasure and pride when we find so many RCCIIT Alumni are working in senior positions in Public or Private sector within and outside India. We are also motivated to see that some of the Alumni are involved in high-end research or are managing their own companies. We hope to see others from recent pass out batches also doing well professionally and sooner or later establishing themselves in responsible positions of industry or setting up their own enterprises.

Now, besides participation in Alumni meet (in virtual or physical mode) that helps in meeting old friends/teacher/staff of the Dept., share nostalgic memories and eventually strengthen the bonding and network of the Alumni, there should be a greater objective of the Alumni (Association) as far as the mother institute is concerned. Out of all the stakeholders of the institute, we believe that Alumni can contribute most effectively towards the overall development, excellence and promotion of the institute.

The avenues where the Alumni can contribute may be listed as: (i) Give effective suggestion to improve the regular teaching-learning process, offer additional courses in specialized area (where expert support can be rendered by the Alumni), (ii) Help arrange internship in industry for 3<sup>rd</sup> Yr. students, (iii) Facilitate campus interviews (in core or ICT domain) for graduating students or lateral hiring for pass-out students, (iv) Give talks and training on core engineering subjects and emerging technology, (v) Guide student projects as mentors, (vi) Motivate students by giving pep talk on current industry needs/trends or on how to prepare for jobs/higher studies or how to crack GATE/CAT/GRE/IES etc. or how to go for a start-up venture, (vii) Facilitate effective collaboration of EE Dept. with industry/academia .

Also it is important to build an Alumni fund out of Alumni contribution/donation. The fund should be jointly operated by the authorized representative of Dept. and Alumni and can be utilized for the welfare of the students and/or development of the Dept. (e.g. developing a specialized lab or procuring equipment/software etc.). In NAAC and NBA the institute is asked to show how Alumni is supporting (funding) the institute, how it is utilized, how the books of account is maintained, audited etc. Therefore funding support from Alumni and its constructive utilization for the benefit of the Dept./Institute is important nowadays and it should not be confined only in sporadic support extended by the Alumni in Regalia like events organized by the students.

We are trying our best to improve the standards and practices of our programs looking at the ultimate benefit of the students – teachers are devoting extra hours beyond regular classes (without additional remuneration) to improve coding skill of the students; B.Tech EE is already NBA accredited – NBA norms are being maintained to retain the status; the institute is applying for NAAC accreditation after complying all the norms and requirements of NAAC. We have signed MoU with NORD Drives, Landis-Gyr, Lynx (Lawrence & Mayo) (and some more are in queue) to harbour collaborative training/project with industry.

So, it is my appeal to the Alumni that as like all good institutes, RCCIIT Alumni (EE) must come up voluntarily and support the Dept. in whatever capacity they can.

Looking forward to an everlasting bonding with the Alumni,

With best wishes,

**Prof. Dr. Anirban Mukherjee,**  
Principal (O), RCCIIT

I am truly honored for being the Convener of the Alumni Committee of the Electrical Engineering Department, RCC Institute of Information Technology. This year our department organized its very first Departmental Alumni Meet “SAMPARK-2021” on 30<sup>th</sup> May.

Department of Electrical Engineering started its journey in the year 2009 and our first batch passed out in 2013. From then onwards, it has been a long journey that we have completed together and expect many more to come. Within these 8 years, I am really fortunate to have been involved with such large numbers of students having skills in different dimensions. Excellent academicians, outstanding players in outdoor games, very good players of indoor games, superb musicians and last but not the least magnificent human beings. Many of them are not connected now because of some reason. So, the main objective of this event “Sampark” is to unite all of them, remain connected and cherish our old but golden memories.

Thank you for your valuable involvement with this College of Engineering. This year we have not been able to circulate this event invitation to all our departmental alumni, but in the future, we will try our level best to reach all of you. While interacting with many of you, I have felt your affection for your alma mater. Several of you have expressed your desire to help the next generation of engineering students and to encourage and mentor students currently in our program. The best colleges have close connections with their alumni, and we are endeavoring to make RCC Institute of Information Technology one of the best. As our alumni, you are a great resource for the College. If you have not visited campus lately, I invite you to come to the college once the current situation improves and let us show you some of our newest developments. I feel you will be pleased.

You all are a powerful resource to the college and its students both today and in future. If a tree has strong roots, then it has no reason to fear the turbulent wind. Similarly, if we have a strong interconnection within our alumni community then we can also assure to offer better skill development opportunities for our current students.

I believe that the alumni members can,

**Mentor Current Students** by giving guidance in different domains like technological updates, higher studies, entrepreneurship guidance, competitive examination preparation tips and much more.

**Share Ideas** with the departmental staff for enriching our department in terms of both education and culture. Also, they can suggest and help in organizing different programs which can be helpful towards enhancing the skills of the departmental persons. By doing so alumni can recognize and honor other students who have succeeded in their career.

**Strengthen our Program** by active participation as volunteer to the various departmental committees. Arrange special lectures and lab sessions for the students, which will be beneficial for the department as well as college. Besides that, alumni can guide and help by providing industrial internships to the students or doing some industrial collaborative project with staff members. They can also suggest different Trainings and Workshops for the students which will enhance their skills and make them industry ready.

Sampark 2021 is our first attempt to recreate the process of our bonding. In this occasion we are publishing an e-magazine named "*Sampark*", consisting of the memories of our golden days. I hope the Departmental Alumni Committee will continue the execution of this kind of program in near future and also expect healthy participation from the alumni.

**Mr. Sarbojit Mukherjee,**

Convener,

EE Department Alumni Committee,

RCCIIT

It gives me immense pleasure to lead the Department of Electrical Engineering, RCC Institute of Information Technology (RCCIIT). The department of Electrical Engineering has started its journey from 2009 and offering B.Tech degree under the affiliation of *Maulana Abul Kalam Azad University of Technology (MAKAUT)*. Since its inception, the department is maintaining excellent infrastructure and lab facilities, imparting innovative and quality education and has evolved globally to a remarkable position. The major strength of the department is a team of well qualified and dedicated faculties who are continuously supporting the students for their academic excellence.

Our students have their own brand group and achieve university top positions, secure good rank in different national and international level competitions like GATE, GRE, TOEFL, CAT etc. They are working in top level core and IT companies and occupies prestigious positions in reputed organizations in India and also abroad. Every year a large number of brilliant students take admission for higher studies and join research work in top level educational institutions. The students of our department are successful and competent in almost all engineering fields & professional areas by their own talent and charisma.

The department is committed to work towards overall growth and success of the students and constantly inculcating to maintain the qualities and features which are required and acceptable by the industry, society and the academia. I feel with confidence that with the joint contributions of the faculties, staff, students and the alumni members, the department of Electrical Engineering, RCCIIT has emerged as an excellent learning centre.

I would like to take this opportunity to mention that our 1<sup>st</sup> Alumni Meet Program, “*SAMPARK-2021*” is an honest attempt to strengthen the bonding between alumni and the department. I strongly believe that alumni can play an important role in building the credibility and growth of the department. “*SAMPARK-2021*” is an excellent platform for bringing all the alumni closer and builds up interaction with the present and past community which will help to elevate the quality of our academic programmes, industry collaborations, training & internship and various other facts of our operations. I hope that the department will continue this nice effort and maintain an endless relationship with our alumni to build a vibrant and potential alumni network in a common platform.

**Dr. Debasish Mondal**  
HoD, Electrical Engg.,  
RCCIIT

# FIC ALUMNI AFFAIRS SPEAKS..

A very warm welcome to each and everyone reading this message. A very proud moment for us announcing the event of our **Electrical Engineering** department's **SAMPARK** – under the initiative of **RCCIIT's C2A (Connect to Alumni)** program.

It's been so many years, I still remember my **first communication** with you people, be it in the regular classes or during the placement or in different cultural and sports activities. Your faces are still so **freshly imaginable**, dear graduates. I can remember many of you, struggling hard to achieve your career goals, aspiring higher, and what not, although it's been so long it seems as if it was just yesterday!

I appreciate the idea of **Alumni Meet**, that too in this critical time. This type of get-together (real or virtual) always creates a closeness between the faculty and staff members and the ones who have graduated & are already well-established in the professional world. I believe **SAMPARK** is a perfect platform to meet and revive the **bonding** between your peers and teachers.

The **benchmark** set by the alumni like you is itself proof that our Electrical Engineering department's graph has been steadily going up. But, we are not limited to this; our commitment is something deeper and more pervasive, which requires a lot of introspection. Our concern is whether we as faculty were able to **create** in you the **qualities** of respect, empathy, love, tolerance, honesty, and above all, humanity.

**SAMPARK** is for us to meet together, reflect & express our concern, and for you to provide your honest opinion about when and where did we **faulted** & where all did we **accomplished** our pre-set goals.

I would say that I am really delighted to meet you all here who spared some time for us, loved to hear from you, enjoyed my time with you, and really thankful for whatever you delivered and shared for our current students.

May You Be Always Blessed,  
Thank you all.

**Dr. Abhijit Das,**  
Faculty-in-Charge,  
Alumni Affairs,  
RCCIIT

I would like to thank you all from depth of my heart for attending the Alumni meet. Hope your enthusiasm and energy motivate all of our present students to strive constantly to enhance skills. It was really a rewarding experience to welcome you back and apprise the good times we have shared together in your student years and later as Alumni. I wish to appreciate you for the constant and unstinting support. The Department as well as Institute is what it is because of you, continue to contribute to the Institute's growth in whatever way you can and stay in touch.

Best Wishes,

**Dr. Abhishek Basu**  
Faculty-in-Charge,  
Academic Affairs,  
RCCIIT

# FIC ACADEMICS SPEAKS..

"Human knowledge is never contained in one person. It grows from the relationships we create between each other and the world, and still, it is never complete."- By Paul Kalanithi.

I am overwhelmed to learn about the publication of "SAMPARK" which I am sure will play a pivotal role in re connecting students, pals, mentors and many others who have helped us shape and build our lives. It will surely live up to be a great platform for sharing experiences, knowledge and memories that will enrich and enlighten all of us. I wish that in such difficult times SAMPARK will strengthen the bond of unity and integrity amongst all. An Institute is recognized by its Alumni, their footsteps. I hope 'SAMPARK' will be a constant source of new and enterprising ideas from the alumni which will be a point of inspiration for the current students. Further I hope the Magazine will create a bridge between the Alumni and present students.

I still remember the very first day of entering B.E.College in the year 1982 and the entire duration of 4 years is still vivid in my memory just like yesterday. We cherish every moment of that time. Those memories are kept in a golden frame of my mind and will surely last throughout my life time. Whenever I get time, I visit my Institute occasionally and the Department of Electrical Engineering of IEST. Yes! Every time I am carried away by the same wonderful nostalgia!

I understand the same feelings, emotions are there in the mind of each and every Alumni who pursued their Electrical Engineering Studies here in the RCCIIT, whose curious, intelligent, respectful or naughty faces are always on my mind starting from the very First Batch, I hope this Bond will be stronger day by day and will last forever.

My best wishes for the success of this awesome endeavor...

**Prof. Dr. Ashoke Mondal**

HoD, ECE,  
RCCIIT

## ALUMNI MEET 2021: SAMPARK

13

# ALUMNI MEET 2021: SAMPARK

May 30, 2021  
Online Meet

Alumni meets aspire to acknowledge the contribution of ex-students. This brings old friends together, and helps to go down the memory lane to cherish the experiences of their golden days of college life. Such meets are the best ways to relish lost moments. It is an extremely sensitive and emotional event that sparks nostalgia among everyone. Alumni are the important stakeholder of the department. They have significant role in building the status and in development of the department. In this context Department of Electrical Engineering, RCCIIT has organized alumni meet “*Sampark*”. The event “*Sampark*” is the first attempt of the department to strengthen the bonding between alumni and the department and to build a potential alumni network of the department. This event is planned to create link with the passed out students for the development of career and opportunities among the present students.

**OPENING SESSION (11:00 A.M. - 11:30 A.M.):**

**The Program was inaugurated by:**

- ❖ **Prof. (Dr.) Anirban Mukherjee** (*Principal (O), RCCIIT*)
- ❖ **Dr. Abhishek Basu** (*Associate Professor and FIC Academics, RCCIIT*)
- ❖ **Dr. Abhijit Das** (*Associate Professor and FIC Alumni, RCCIIT*)
- ❖ **Dr. Debasish Mondal** (*Associate Professor and HOD, EE dept, RCCIIT*)
- ❖ **Prof. (Dr.) Ashoke Mondal** (*Professor and HOD, ECE dept, RCCIIT*)

The inauguration of the event was started with welcome address by the convener of the program, **Mr. Sarbojit Mukherjee**, Asst. Prof EE. He also introduced student volunteers to conduct this program. All invited dignitaries were then requested for their short inaugural speeches.

Principal (O), RCCIIT, **Prof. (Dr.) Anirban Mukherjee** talked about the importance of alumni and the alumni meet event. He mentioned that alumni are the valuable stakeholder of the department, their contribution is essential for growth of the department and the institute. He did put his views on how alumni can contribute to the institute like in the area of training & placement, development of industry sponsored lab, setting up MOU with industry and towards other benefits for the students. He also requested alumni to share their real-world experiences in their path of journey to present day position with the current students. He expressed excitement to see huge participation and response of the alumni members in this program and inspired students, conveners, HOD, EE and other faculty members for organization of this event.

After the speech of Principal (O), other dignitaries delivered their short inaugural speech. FIC Academic, **Dr. Abhishek Basu** expressed the necessity of alumni meet and also requested alumni for their support and guidance for advancement of the department and the institute.

He mentioned that alumni are the flag bearer of the institute to the outside world and they can participate to reshape the institute towards betterment.

FIC Alumni, **Dr. Abhijit Das** agreed with the views of the previous speakers regarding the necessity of alumni meet as they are the backbone of the institute. He mentioned that institute has already planned to create an official forum with the alumni to develop a central Alumni network through this type of departmental event.

HOD EE, **Dr. Debasish Mondal** has given thanks to all the students and the invited alumni and faculty members and management of the institute for rendering active support towards organization of this event. He mentioned that “**SAMPARK-2021**” is an excellent effort of the department to establish everlasting relation with the alumni. He also opined that these alumni can help to elevate the industry collaborations, training & internship and various other operations of the department. He stated that at present the

department is facing some sort of problem regarding placement and admission and requested alumni for suggestions and their views in this matter.

HOD ECE, **Prof. (Dr.) Ashoke Mondal** appreciated the members of organizing committee for fine arrangement of this program. He mentioned that it was the long awaiting event of the department. He gave hearty thanks to the organizers for ultimately bringing this event into reality. He also mentioned that the institute can be recognized by the alumni as they are the prime footstep of the institute and requested all alumni to help and guide the present students.

After the end of inaugural speech, student volunteers requested **Dr. Abhijit Das** for an inaugural song. His pleasant melody created a superb environment in the program.

#### KEYNOTE LECTURE SESSION (11:30 A.M. - 12:50 P.M.):

After the end of inauguration session keynote lecture session started. Organizing members then invited guest alumni speakers to start their speech. Student volunteers introduced each alumni speaker and read their credentials and short biography.

#### ❖ Guest Speaker(11:30 A.M to 11:50 A.M):

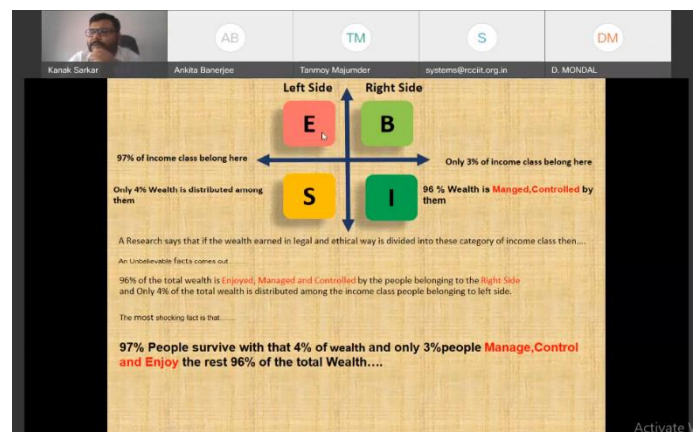

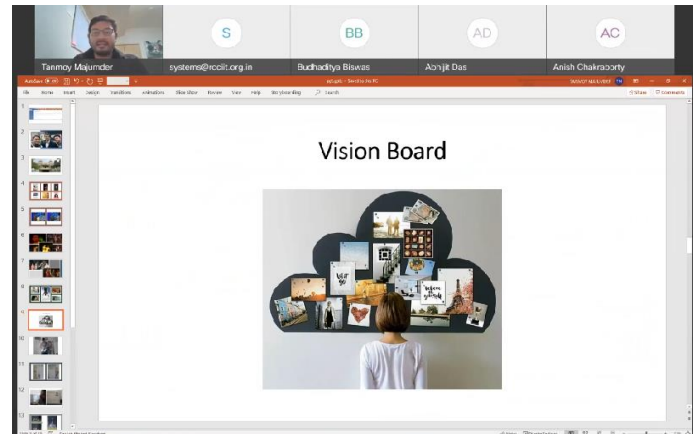

1) **Mr. Tanmoy Majumder (Year 2010-2014)**  
(UI/UX Developer, Konica Minolta Inc.  
Hachioji, Tokyo, Japan)

This speaker covered all his success stories by slide presentation. He mainly focused on “Laws of Attraction” and “Visualization Techniques” which he had applied in his life to get success in different stages. His lecture was very impressive and fully enriched with real life experience and motivational elements. He stressed upon the essentiality and requirement of alumni meet. He described all steps in his success story which really gave extra oxygen for the career development of the present students. He also shared some important memories during his college life in RCCIIT.

Email: [tanmoy1majumder@gmail.com](mailto:tanmoy1majumder@gmail.com)

#### ❖ Guest Speaker(11:50 A.M to 12:10 P.M):

2) **Mr. Kanak Sarkar (Year 2009-2013)**  
(Chairman & CEO, Sys Centric Technologies  
Pvt. Ltd. India)

This speaker explained a research study on the utilization, management and control of total wealth among different class of peoples like employee & small business owner vs. investor & big business owner and their basic needs and thought process. He also highlighted what qualities are needed to become an entrepreneur and described his journey from a EE student to an entrepreneur. He gave guidance to present students regarding job opportunities and internship.

HOD, EE expressed interest for establishment of a MOU between his company and the department. Contact: <https://www.linkedin.com/in/kanak-sarkar-893620a7>

#### ❖ Guest Speaker(12:10 A.M to 12:30 P.M):

3) Mr. Priyam Banerjee (Year 2011-2015) (Software Engineer, John Deere. Chicago, Illinois. U.S)

He explained detailed plan, preparation and application procedures for higher studies and research in USA. He described in detail various prospects and credit courses available for the study of Master of Science and Integrated Ph. D/Ph. D in USA, which were really very effective and important information for the current students. He has given basic introduction on his present work area, “Cloud DevOps” and “Telemetry” and on his role as a Cloud DevOps Engineer. He advised students for major utilization of social media platform like “LinkedIn”, “Monstar.com”, “Naukri.com” etc. for job applications. He also shared few important memories in his college life and also during studying in USA.

Contact: <https://www.linkedin.com/in/priyam-b-814508152/>

4) Mr. Nilanjan Banerjee (Year 2011-2015) (Auditor, Defense Accountants Department)

This speaker described tricks about how to crack any competitive examinations like PSU, GATE, IES, and UPSC etc. He addressed the subjective and objective applications of engineering knowledge. He advised students first to determine and fix a target, because one can't crack all these examination simultaneously. He emphasized that everyone should have proper clarity of thought about his/her aim and goal which is the key for one's achievement. He mentioned that whatever may be the area and field of one's job, technical knowledge is essential. He also opined that engineers should think innovatively based on the requirements of the society.

Email: [nilanjanbanerjee.s@gmail.com](mailto:nilanjanbanerjee.s@gmail.com)

#### ❖ Closing Ceremony (12:50 PM – 01.00 PM):

At the end, convener of the program, **Mr. Sarbojit Mukherjee**, delivered the vote of thanks to all the student participants, guest speakers, all our alumni members, faculty and staff members and

management of the institute. Program ended with group photos for all the participants.

The top screenshot displays a slide titled "Higher study in USA" with the question "What are my options?". It lists five options:

1. Master of Science, Non-Thesis Non-Conditional Admit (36 credit points. Usually 2 years course) [ 3 x 12 course credits = 36 Credit Points in total)
2. Master of Science, Non-Thesis Conditional Admit (First complete Pre-requisite papers then 36 credit points. Usually 2 years course) [ 3 x 12 course credits = 36 Credit Points in total)
3. Master of Science, Thesis/Research (30 credit points. Usually 2 years course) [ 3 x 8 course credits = 24 + 6 research credits = 30 Credit Points in total)
4. Integrated Ph.D (Master Degree + Ph.D) (Time-frame and graduation criteria depends on your Research Supervisor)
5. Ph.D (Given the fact that you've completed Masters Degree already) (Time-frame and graduation criteria depends on your Research Supervisor)

The middle screenshot shows a group photo of students and faculty members, with the caption "First batch of Industrial Visit to Vizag Steel Plant, 2013".

The bottom screenshot shows a Zoom meeting interface with a grid of participants. One participant's screen is shared, displaying a newspaper clipping with the headline "Life will be flat without dreams, says Sachin".

# THE UNTOLD STORY!

## Budhaditya Biswas

Assistant Professor || EE Department  
RCCIIT

### Chapter I (The Beginning)

তখন আমার বছর দুয়েক হয়েছে এই কলেজ এ join করার. Department থেকে initiative নেয়া হলো যে একটা Industrial tour করা হবে. Ashoke Mondal Sir এর চেনা জানা থাকতে শেষ এ ঠিক হয় যে Vizag Steel Plant এ visit হবে. Student দের মধ্যে শুরু হলো অসীম উদ্দীপনা. এই উদ্দীপনা তা যদি একটু study তে থাকতো তাহলে আমাদের কলেজ আজ জাতে উঠে যেত (don't forget that we also have IIT inside our name). তা যাক student এবং teacher দের যৌথ উদ্যোগে সব ব্যবস্থাপনা করা হলো. আমি, সর্বাঙ্গিক এবং নিজাম স্যার এর ঘাড় এ গুরুদায়িত্ব অর্পণ করা হলো টুর টি সুষ্ঠু ভাবে সম্পন্ন করার জন্যে. অবশেষে এল সেই বহু কাঙ্ক্ষিত দিন টি. আমাদের train ছিল হাওড়া শালিমার স্টেশন থেকে দুপুর বেলা. Teacher দের জন্যে AC কোচ র student দের জন্যে general কোচ. অনেক guardian এসেছিলেন তাদের সন্তান দের see off করতে. কেউ কেউ কন্যাদায়গ্রস্থ পিতার মতো হাত ধরে অনুরোধ করলেন তাদের সন্তান দের দেখে শুনে রাখার জন্যে. সবাই কে অভয় দিয়ে আমরা ট্রেন এ উঠলাম.

ট্রেন এর মধ্যে তখন ও AC চালিয়েছিল কিনা মনে নেই but নিজাম স্যার উঠেই মমি র মতন নিজেকে মুড়ে নিলেন সাদা চাদর এ. জিজ্ঞেস করতে উনি বললেন যে ভিতর এ নাকি প্রচণ্ড ঠান্ডা. নিজের sense organs এর ওপর আমার একটু সন্দেহ হলো যে আমিই বোধ হয় ঠান্ডা তা ঠিক feel করতে পারছি না. যাক যথা সময় এ ট্রেন ছাড়লো. সৌভাগ্য বসত গোটা কম্পার্টমেন্ট তাই ছিল ফাঁকা ফাঁকা. কিছুক্ষণ বাদেই হাজির হলো নিলু (Nilanjan ) দের তাস খেলার দল. শুরু হলো তুমুল তাস এর লড়াই. নিজাম স্যার এবং সর্বাঙ্গিক উভয় ই তাস খেলায় পারদর্শী, student

রাও কম যাই না. লড়াই জমে উঠলো, এখানে একটি কথা বিশেষ ভাবে উল্লেখ্য যে আমাদের Bhanja (Somnath) এই tour টাই বরকত্তা র দায়িত্ব পালন করেছে. ও মাঝে মাঝেই এসে আমাদের জিজ্ঞেস করতো যে "Sir সব ঠিক আছে তো?" "খাওয়াদাওয়া করেছেন তো?" "কেমন লাগছে Sir?" "কোনো অসুবিধা হলে বলবেন কিন্তু" ইত্যাদি ইত্যাদি .

মাঝে একবার টিকিট চেকার এলেন. এতো জন non-AC র প্যাসেঞ্জের দেখে উনি একটু বিরক্তই হলেন. বললেন যে তাড়াতাড়ি ফিরে যাও নিজ নিজ সিট এ, but আমাদের তাসের লড়াই চলতেই থাকলো. অনেক পরে চেকার বাবু একবার ফিরে এসেছিলেন এবং সেই একই অবস্থা দেখে উনি হুমকি -র সুরে বললেন যে এর পরে ফিরে না গেলে ফাইন করে দেবেন. কিন্তু তাতে কেউ কর্ণপাত করলো বলে মনে হলো না. এই ভাবেই আমাদের journey শেষ হলো Vizag স্টেশন এ রাত ৩ টের সময়.

## Chapter II (The Hotel)

স্টেশন থেকে হোটেলে যেতে আমাদের কোন অসুবিধা হয়নি. হোটেল টাকে আমরা একটু কনভার্ট করে নিয়েছিলাম. নিজাম স্যার এর ঘরটা হয়ে গেল তাস খেলার ঘর, আমার আর সর্বাঙ্গিৎ এর ঘরটা হয়ে গেল খেলা নিয়ে যত রাজ্যের তর্কবিতর্কের ঘর, আর তিনতলাটা সেটা student রা নিয়েছিল, ultimately ওটা একটা ডিস্কোবার এ কনভার্ট হয়ে যায়. আমাদের প্রতিভাবান ছাত্র তা নাকি D J light ও জোগাড় করে ফেলেছিলো ওখানে. এখানে একটি স্মরণীয় ঘটনা, একদিন সন্ধ্যা থেকে নিজাম sir এর room এ প্রচন্ড তাস এর লড়াই চলছে. আমাদের নীলাঞ্জন একটা ভুল চাল দেওয়াতে নিজাম স্যার পারলে তাকে fail করিয়ে দেয় আর কি, হঠাৎ খেয়াল হলো AC চলছে কিন্তু এতো গরম লাগছে কেন? এতো মশা কামড়াচ্ছে কেন? কিছুক্ষন বাদে আবিষ্কার হলো নিজাম স্যার এর জানলা টা পুরো খোলা. পাশেই খোলা drain থেকে মশা আসছে. নিজাম স্যার নির্লিপ্ত ভাবে বললো যে fresh air আসবে বলে উনি জানলা টা খুলে AC চালিয়েছিলেন. পরে শুনেছিলাম আমরা চলে

আসার পরে ওই হোটেল মালিক একজন ভাংড়িওয়ালার কাছে পুরোনো কিছু কাঁচ এর বোতল বিক্রি করে ভালো মতো লাভ করেছে.

## Chapter III (Inside VSP)

নর্মাল Industry visit এ যা যা হয় সেগুলো তো আমরা করেইছিলাম কিন্তু এর বাইরে Visag Steel Plant এর মধ্যে আর কি কি হয়েছিল সেই গুলো একটু শোনা যাক. এই যেমন Masanta দেবর gang, ইন্ডাস্ট্রি র মধ্যে হঠাৎ হঠাৎ তারা অদৃশ্য হয়ে যাচ্ছে. সর্বাঙ্গিৎ Sir তো খুব রেগে গেলেন একবার. কেন তারা sincere না? সবাই কত কিছু শিখছে এখানে কিন্তু তারা কেন চোখের আড়ালে চলে যাচ্ছে মাঝে মাঝে? অনুসন্ধান করে জানা গেলো যে তাদের নাকি মাঝে মাঝেই বাথরুম যাবার দরকার হয়ে পড়ছে এবং তারা বাথরুম থেকে বেরোলে security র লোক জন fire extinguisher নিয়ে দৌড়োচ্ছে ধোয়া র উৎস খুঁজতে. এখানে আমাদের সুতপার কথা ভালো ভাবে মনে পড়ছে. ওর ৮ টা luggage এর মধ্যে একটা ছিল শুধু সাজগোজ করবার সরঞ্জাম. industry র মধ্যে প্রচুর রোদ হবে বলে ও নাকি রিসার্চ করে অনেক রকম protection নিয়েছিল যাতে sun tan না পরে চেহারায়. তবে খুবই শিক্ষণীয় ভ্রমণ হয়েছিল সেই বার. প্রত্যেক এ প্রচুর জ্ঞান অর্জন করে সন্ধ্যা বেলা আবার হোটেল এ ফেরা হলো.

## Chapter IV (Sightseeing)

এই শিক্ষণীয় ভ্রমণের মাঝেই আমরা একবার araku valley এবং Boora Caves দেখতে গিয়েছিলাম খুব ই অল্প সময় এর জন্যে. আসলে এই tight schedule এর মধ্যে সামান্য time বের করে আসে পাশে একটু ঘুরে দেখা আর কি. সেখানে কি কি ঘটলো এবার শোনা যাক. নিজাম স্যার বোরা caves এ ঢুকলেন ই না মাথায় cave ভেঙে পড়ার ভয় এ. আরাকু valley তে একটা পার্ক এ ফ্রি তে তীর চালানোর সুযোগ হয়েছিল. নিজাম স্যার এর তীরন্দাজি দেখে আমরা তো অবাক. অর্জুন তো কোন ছার, নিজাম স্যার এর হাত এ তীর ধনুক দিলে উড়ন্ত মাছির গা এ লেগে থাকা করোনা ভাইরাস কেও উনি তীর চালিয়ে নির্মূল করতে পারেন. Boating এ আমার partner হয়েছিলেন স্যার র Priyam এবং Masanta ইচ্ছা করে আমাদের বোট টাকে ধাক্কা লাগিয়ে ডোবানোর চেষ্টা করছিলো. Padmapuram Gardens এর সামনে আমাদের সবার নাচ খুব ই স্বরণীয়. সেখানে আমাদের Sayni র ডান্স দেখতে পাশের গ্রাম থেকেও নাকি লোক জন সব ছুটে আসছিলো. এর মধ্যেও আমাদের কিছু স্বাস্থ সতেন চলে ছিল যারা গলা শুকিয়ে যাবার ভয় এ always ব্যাক পকেট এ কিছু লিকুইড রেখে দিতো বোতল শুদ্ধ. সর্বিজিৎ স্যার এর এতে ভীষণ আপত্তি ছিল কিন্তু কত সচেতন ভাবুন তো তারা. 2021 এ এই pandemic situation এ যখন ডাক্তার রা বলছে গলা মাঝে মাঝেই ভিজিয়ে নেবেন জল খেয়ে সেখানে 2013 তেও সেই সব ছাত্র রা ব্যাপার টা উপলব্ধি করেছিল. একেই বোধহয় বলে দূরদর্শিতা. আর কিছু স্বরণীয় ঘটনার মধ্যে ১০ টাকায় চিকেন কাবাব বলে কাক এর মাংস খাবার ঘটনাও উল্লেখযোগ্য.

## Chapter V (The Rock & The Beach)

একদিন বিকাল এ industry visit এর পরে ঠিক হলো আমরা কৈলাশগিরি যাবো. সবাই হৈ হৈ করে রেডি হয়ে গেলো যাবার জন্যে. ওখানে পৌঁছে সবাই যেন বাচ্চা হয়ে গেলো. মনে আছে শুধু লুকোচুরি র ছোয়াছুয়ি বাদে মনে হয় সব খেলায় আমরা খেলেছি ওখানে. ওপর থেকে গোটা Vizag শহর টাকে দেখা, টয় ট্রেন এ চড়া, বাচ্চা দেড় rides গুলো তে ওঠা, photo session সব ই হয়েছিল. এখানে সব থেকে স্মৃতিমুখর ঘটনা হলো নিজাম স্যার এর সামনেই নিজাম স্যার এর মিমিক্রি করেছিল শোভন. তবে ইন্ডাস্ট্রি ভিসিট এর চাপ এর জন্যে Souvik এবং Masanta দের গ্রুপ এর কিছু ছেলের চোখ কিন্তু always লাল থাকতো.

যেদিন আমরা ফিরে আসবো সেদিন আমাদের ট্রেন ছিল বিকাল বেলা তে. সকাল তা আমরা সবাই ফ্রি ছিলাম. আগের দিন রাতের দীর্ঘ উৎসব এর পরে সবাই চাইছিলো একটু খাষিকোন্ডা বিচ এ সমুদ্র স্নান করতে যাবো. যথারীতি গিয়েও পৌঁছলাম ওখানে. বোতল গ্যাং যথারীতি তাদের হেলথ এর কথা ভেবে পকেট এ পানীয় র বোতল নিয়ে গিয়েছিলো. তারপর শুরু হলো স্নান. সমুদ্র ও সেদিন একটু ভয় পেয়ে গিয়েছিলো এটা ভেবে যে এরা করা এসেছে? আমাদের ছেলে দের ভদ্র ভাবে স্নান করা দেখে আসে পাশের লোক জন ও একটু সাইড এ সরে গিয়েছিলো সেদিন. সর্বাঙ্গিৎ স্যার তো beach volley তে একটা টুর্নামেন্ট শুরু করে দিলো. এদিকে নিজাম স্যার ঘাড় এ সব দায়িত্ব দিয়ে (দায়িত্ব মানে ওই ক্যামেরা, জামা কাপড়, valuables, etc etc) আমি ও নেবে পড়লাম. অনেকদিন পরে খেয়াল হলো যে আমাদের তো ফিরতে হবে হোটেল এ, যাওয়া আছে আজ.

কিন্তু সর্বাঙ্গিৎ স্যার এর tournament তখন মাঝ পথে. বহু request করে পরেও কেউ জল থেকে উঠলো না. অগত্যা কোনো উপায় না দেখে আমি বিচ এর announcement tower এ গেলাম. পরিষ্কার ইংলিশ এ তাদের বললাম যে May I make an announcement to our student? উত্তরে তারা আমাকে তামিল না তেলেগু তে দুর্বোদ্ধ ভাবে কিছু একটা বললো. মুশকিল এ পড়লাম. না আমি তাদের ভাষা বুঝি না তারা আমার ভাষা বুঝতে চাই. লাস্ট এ র কোনো উপায় না দেখে অভিনয় করে তাদের বোঝালাম যে আমি একটা announcement করবো just. At last, তাদের permission পেলাম. সবাই কে তাদের মাতৃভাষায় সুন্দর করে বললাম যে এবার চলে এস, অনেক স্নান হয়েছে. মাতৃভাষার এটাই মহিমা যে সবাই একবারেই বুঝে গেলো এবং তারা উঠেও এল জল থেকে. তারপর আমরা সবাই আবার হোটেল এ ফিরলাম.

## Chapter VI (The Return Journey)

ট্রেন এ উঠে সর্বজিৎ স্যার সবাই ঠিক ঠাক বসেছে কিনা দেখতে গেলো. Unfortunately, নিজাম স্যার এর sit টা অন্য জায়গায় পড়েছিল. সবাই কে বসিয়ে দিয়ে সর্বজিৎ স্যার নিজাম স্যার এর খোঁজ এ গেলো. গিয়ে দেখে নিজাম স্যার তার luggage হাত এ নিয়ে দাঁড়িয়ে আছে এবং অন্য একটা লোক নিজাম স্যার এর berth এ আরাম সে ঘুমাচ্ছে. কারণ জিজ্ঞেস করতে নিজাম স্যার বললেন যে থাক ঘুমাচ্ছে লোক টা আরাম করে, ডাকার র দরকার নেই. নিজাম স্যার এর আপত্তি থাকা সত্ত্বেও সর্বজিৎ স্যার লোক টাকে তুলে দিয়ে নিজাম স্যার কে বসিয়ে দিয়ে এলো.

একটু অরাক হয়েছিলাম এটা দেখে যে Souvik Masanta গ্যাং এর অনেক এর পকেট এ perfume এর শিশি দেখে. আসলে আমরা ঘর এ দুর্গন্ধ বেরোলে যেমন ধূপ ধুনো দি তেমন ই ব্যাপার আরকি. ট্রেন জার্নি টাও ভালোই ভালোই মিটলো এবং আমরা সবাই নিজের নিজের বাড়ি ফিরে এলাম.

এখানে খুবই কষ্টের সাথে উল্লেখ করতে হচ্ছে যে সেই অসাধারণ মিমিক্রি boy শোভন আজ আর আমাদের মাঝে নেই, ভগবানের কাছে তার আত্মার শান্তি কামনা করি.

যাদের সাথে আমরা এই tour তাই গিয়েছিলাম তারা আজ সবাই প্রাক্তন. জীবন এ অনেক বড় বড় জায়গায় তারা আজ প্রতিষ্ঠিত. সবার কাছেই তাদের কলেজ লাইফ তা খুব ই প্রিয় ছিল. এই golden time আর কখনো ফিরে আসবে না তাদের কাছে. আমরা সবাই নিজের নিজের স্কুল / কলেজ এর জীবন টাকে খুবই miss করি. ভাবি যদি কখনো ফিরে যাওয়া যেত ওই লাইফ টাই. কিন্তু ওই লাইফ তা আমাদের স্মৃতি তেই রয়ে যাই সারাজীবন. আর কখনো ফিরে আসে না. তাই যারা এখনো student আছে তাদের জন্যে বলছি এই time টাকে যত পারো এনজয় করো পড়াশোনা করে পাশাপাশি. জীবন এ টাকা পয়সা, সুখ সমৃদ্ধি সব একদিন আসবে কিন্তু এই student life আর একখনো ফিরে আসবে না. So, learn with fun always.

## Things end but MEMORIES last FOREVER!

### Souradip Goswami

B. Tech. (EE) || Class of 2017

Currently Programmer Analyst @ Cognizant.

In the penultimate stage of teenage an aspirant steps in an Engineering college with a dream to become a successful engineer in future endeavors. Driven by the mixed bag of emotions including enthusiasm of touching sky limit and fear of adapting to a new environment, we all started our college days. And as the days passed by, we found the best diamonds of our lives; **friends**.

RCCIIT, EE Batch 2013-2017 is no different. I still remember we started our initial days together as a unit and gradually went through various phases of 1<sup>st</sup> year like wearing formals, freshers, annual fest etc. Together in 4 years we had completed 8 semesters, 44 Theoretical subjects, around 20 Pratical and N number of assignments and internals. That is only one side of the coin but the other side is fun-frolic, memories, reminiscences and nostalgia.

### Memories of our batch

Very first I want to highlight about our **4 days industrial visit in Vizag steel Plant in September, 2016** in the 7<sup>th</sup> Semester. Around 60 of us enjoyed every bit of this trip; starting from the midnight nuisance in the hotel (later it was exposed that girls' gang was mastermind of this incident) to next day plant visit everything was mesmerizing. Another important aspect was train journey, omg!!! that was lifetime fun (like playing UNO whole day or pouring cold water at midnight or creating horror scenarios in the berth etc. and many more). Also, we had visited **Rishikonda Beach, Ramkrishna Beach, Araku valley and Navy private beach near to dolphin's point**. *A special thanks to Debasish sir, Subhasis sir and Rupak sir for organizing this tour successfully.*

Then I would like to convey another **notorious incident** in final year; *one of our friends had added our respected HOD sir of EE department of that time in an encrypted Whatsapp group of 9 members*. Later we came to know that another friend who was admin of that group made the group's name in the honor of HOD sir and few other sent some inappropriate messages and emojis in the group before sir left the group (or we had removed him, can't recall exactly). Next day sir hollered all of us (who were involved), scolded and made guardian call. Later everything was resolved in a happy note.

**Playing Cricket** inside and outside the college premises. We had one tiny ground inside the new building where we used to spend a lot of quality time. **A special thanks to Sarbojit sir for always encouraging us to play Cricket outside the study curriculum and he used to participate with us whenever possible.**

Finally, the classrooms, benches, blackboards, chalks, dusters, canteen, old building, cross the mini-pond in old building, special drawings on the outer part of the door of HOD room (for that door needs to be repainted just before our leaving the college), washroom (most important place to pass our semester exams with safekeeping of our organizers) are involved with lots of sweet and sour memories.

**Memories in Labs were uncountable and unforgettable** we had Machine lab with NM sir and SBB sir, Power lab we got BB sir and NM sir, Power Electronics we had SM sir and SB madam, Control lab we got DM sir and AK sir (giving us the virtual tour of *Airbus* in theoretical class while explaining closed loop control system was amazing).

**In Physics Lab** we had a funny incident involving **Gobardanga High school and Kanchan sir**.

**Another** memorable incident was when we ran away via the backdoor of our college

jumping over the long wall when seniors called for a day long strike in campus in initial days of our college.

#### **Gratitude to Faculties and staffs:**

I would like to embrace this opportunity to show my heartfelt gratitude to our faculties and support staffs who worked day in, day out tirelessly not only to see us successful but also to build us as a good human being. **Special thanks to Ashoke sir, Debasish sir, Alok sir, Shilpi madam, Nijam sir, Budhaditya sir, Sarbojit sir, Subhasis sir, Dipankar sir, Pradip sir, Nitai sir, Jhuma madam, Abir sir, Ashim sir, Rupak sir, Tanajit sir and everyone else.** (Please pardon me if I have missed anyone). Please support us throughout our life in this similar fashion.

#### **A small message to Juniors:**

No matter how much you think you hate **COLLEGE...!!!** You will always miss it when you leave; so, enjoy every bit of it.

Finally, I would like to say there was lots of ups and downs, good and bad memories throughout those four years, but down the line **we all wish to get back those golden days**. So, thanks a lot **RCCIIT, Electrical Department for giving us such lovely days of our lives, thanks for everything.**

Best Regards,

Souradip Goswami (2013-2017 EE Batch)

Please feel free to reach out for anything or to know more about any above-mentioned incidents.

## 4\*8 ENGINEERING BOARD!

### Pritam Mondal

B. Tech. (EE) || Class of 2018

Currently Student @ Jadavpur University.

#### PAWNS:

With excitement in our hearts and fear in our minds the journey started for the batch of 14-18 of Electrical Engineering. So many new faces and new territories to conquer, I never thought I would start to keep records. With small faces we started facing the teachers but those faces shrunk even more with the thought of facing the seniors, but just like the KING in a chess-board they kept these fresher “PAWNS” in check and showed us the path of making everlasting memories.

#### ROOKS:

With the year around when accustomed with the curriculum and a little more knowledge of how to survive with the HAMMER called Engineering, we started to make our memories. From bunking classes to getting caught, each and every teacher of the department made sure that we keep making

these memories which will go down as the best days of our life. One of the most notable professors Dr. Pradip kr. De retired when we were in our 2<sup>nd</sup> year, and we suddenly realised every good thing must and will come to an end. One name which will always be in our minds is Dr. Ashoke Mondal with his vast experience and depths of knowledge it was our pleasure that we were lucky enough to get classes from him.

The scenes changed after a year the PAWNS, 2 years back who only followed orders were breaking rules and moving all over the board like a ROOK now just to get what they wanted: and by that, I mean the INDUSTRIAL VISIT which has been a standout event for the students of this department for almost 5 years now and none of us were going to back off if the venue shifted from Rashtriya Ispat Nigam Limited to somewhere else. To be honest the tours were a

lot more fun than it was educational so, none of us wanted to miss even just a slice of that cake. When the immovable spirits of all the students come together, things are bound to happen. In this context I would like to thank all our Professors especially Dr. Shilpi Bhattacharya, Dr. Alok Kole for helping for creating these memories.

Professor, sports enthusiast, strict yet the one who would encourage you to study as well as play, it was indeed time for our dept. to challenge for trophies rather than just watching it from afar. With that in mind came Krirathon 2017, and undoubtedly each of my friends played their hearts out and got into the finals, but after the final whistle, when every member of the team along with those who were there to support us felt dejected and were in puddle of tears, it was this man's hand: Sarbojit Mukherjee sir, who has seen his students fail miserably in the finals that came to lift us up. Well, we win some & we lose some, most importantly we did enjoy ourselves.

### KINGS:

The much-awaited final year came just as it would, those bright and shiny faces got smaller, approaching the placements was not at all an easy task it was time people decide what they want to do after graduation. A 22-year-old with barely knowledge of the outside world did what was expected of them got up, wore formals and went for the interviews. There would be sadness if he failed, a smile of joy if he got passed. We were indeed like the KING limited by our options but to move in one direction at a time. This emotional turmoil according to me is what shaped each and every of my friends from our batch. After almost 3 years when I am writing

this most of the people who got rejected and never got their offer letters in the final year are enjoying life just as any other normal person. Getting rejected was not the end it was the beginning of a new journey.

On a gloomy afternoon, when college days were over, the juniors of our department made sure we get to enjoy this for one last time. All my friends had put up a brave front not to show that we were desperately trying to cling on to these last few moments but to enjoy them. We were a bunch of seniors with happy faces but sad souls.

We were in a situation where it was our turn to move but had no legal moves left. So we decided to call it a draw.

**No period of my life has been one of such unmixed happiness as the four years which have been spent within college walls.**

P.S. I have not mentioned any of our batchmates name but every memory we have made are there and will be there FOREVER.

# FOUR YEARS, A LIFE!

## Tuhin Kumar Barui

B. Tech. (EE) || Class of 2017

Currently Student @ IEST, Shibpur.

I feel proud for being a student of RCCIIT, Beliaghata. The Dept. of EE has taught me the essence of Engineering. As an M. Tech. student of IEST, Shibpur I want to say that the period of 2013 - 2017 was the Golden Age of my life. I have achieved a great experience starting from classroom programs to college fest. Uncountable memories are there, of which some incidents are the most memorable.

- The industrial visit to the Vizag Steel Plant organized by Prof. Dr. Alok Kole and the management of the tour by Dr. Debasish Mondal and Mr. Subhasis Banerjee provided lots of knowledge, memories, fun which is unforgettable.
- For vocational training at Eastern Railway Workshop, Kanchrapara Souradip and I were exhausted from ensuring permission to visit there. At first, we were not allowed to visit there but later, Prof. Dr. Ashoke Mondal and Mr. Nijam Uddin Molla helped us to get a permit from the college authority to go there.
- Digital classroom programs, as well as laboratory classes, are the most memorable ones especially the classes of Mr. Nijam Uddin Molla, Dr. Debasish Mondal, Mr. Subhasis Banerjee, and machine laboratory classes assisted by Mr. Ashim Biswas helped us to achieve experience in handling the machinery.

- My three classmates - Souradip Goswami, Rajesh Sardar, Suman Kotal and I were a patent four-membered group starting from the very first day to the last day of the college period. We have a lot of memories in labs, classes, industrial visits, canteens, playgrounds, etc. which is uncountable. In one day, all four were excluded from the ongoing lab class as Souradip Goswami had cut a mouse wire and the incident was caught on by our teacher.

All these incidents will never be repeated further in my life and they have become precious memories. I am very grateful to my college authority for providing me a ground for flourishing myself.

For the juniors, I want to say that just flow with time and gather any type of knowledge from every corner. Lastly, I want to advise my Dept. to focus on more practical classes which is very essential for higher studies.

Best regards,

Tuhin Kumar Barui

2013 – 2017 Batch

Email: [tuhinkumar93@gmail.com](mailto:tuhinkumar93@gmail.com)

Being a part of RCCIIT, one enjoys great opportunities of show casing his/her talents and indulging in activities that he/she is passionate about. The presence of variety of events and competitions throughout the year such as Music, Quiz, Dance, Drama & Literary vouch for recreational development of a student. RCCIIT participates in competitions ranging from college to national level where its students portray the skills that they possess on a competitive platform. Regalia is the biggest Annual event of our institute which is attended by students from various other institutes and it show cases performance by student and eminent personalities of the music industry.

Apart from these the placement cell and alumni committee is currently undertaking measures to help enhance the student's interactive skills on professional level and help in personality development. Also there has been discussion for providing opportunities to the present students to connect with the industry directly under the guidance of faculty members and get to discover the real Corporate World.

INSTITUTE INSIGHTS

Technology, like art, is a soaring exercise of human imagination. RCCIIT has always been encouraging towards technical activities which is evident from its achievements at various events and competitions. RCCIIT hosts the annual technical event Techtrix for students, participating from many different colleges and universities. The EE department has been organizing events, trainings and workshops on AI, Machine Learning & Deep Learning, IOT, Modern Industrial Automation & Control, Big Data among many other topics. EE department also boasts of having IEEE and IEI student chapters headed by members from the student body and faculty members. These provide students with the necessary platform for realizing their ideas which will continue to flourish in the days to come.

# INSTITUTE INSIGHTS

Just like Cultural, RCCIIT has not been lagging behind in the field of sports as well. We have always had an exhilarating sports culture of RCCIIT which is still blooming. RCCIIT boasts of intensive participation in intra and inter college competitions as well as in the regional & national level tournaments. A plethora of sports, both indoor & outdoor are supported within the institute ranging from individual sports like Athletics to team sports like Football & Cricket. Laurels are brought to the institute every now and then in the external competitions.

A wide range of events encompassing both team games and individual sports are organized annually under the name of “Game of Thrones” and “Krirathon”. Sports ranging from Football, Badminton, Cricket, Table Tennis, Athletics etc. are administered and a display of hard work, determination and endurance is manifested all throughout these tournaments.

We look forward to bringing much more laurels in future and maintain the prestige that we hold today.

# FROM THE TEAM

We feel immense felicity to have worked together as a team to make possible the first publication of Departmental Alumni Magazine and our signature event, Sampark–2021; annual alumni meet of EE RCCIIT.

Since eight of the batches have already graduated from the Institute, we are on the verge of developing a solid Alumni network whose roots lie within their Alma Mater. Our most laborious and enthralling task altogether has been working on the Alumni Magazine. Every single detail ranging from minor editing to selection of pictures, penning down articles, designing of logo; everything carries the sweat of the Team. We feel lucky to have been able to serve the Institute and also to gather large volumes of knowledge in the process.

We look forward to taking up a lot many of such initiatives such as beginning of Alumni Chapters and more successions of Alumni Meet in future.

We would like to thank Mr. Sarbojit Mukherjee & Mr. Nijam Uddin Molla, our supportive Departmental Alumni Conveners, Dr. Debasish Mondal, our endearing HoD, and Prof. Dr. Ashoke Mondal, HoD ECE for their unwavering support and guidance throughout the past few months.
