

Report on NDLI Activity: Seminar on 'Indian Knowledge System'

Enrichment of technology can't be proceeded without de-valuating the contribution from ancient, precisely for the countries which have rich academic heritage. To keep in mind and also to spread awareness among employees which is exactly in line with AICTE viewpoint; IQAC of RCCIIT in association with NDLI Club have organized a seminar on 'Indian Knowledge System' on 3rd July 2024. Dr. Satarupa Chatterjee from Department of Physics has helped to travel the participants virtually in the ancient development of Mathematics in our soil, where the notable contributions are vividly emphasized. The journey not only helped to reminiscence, but also ignited the thrust to learn our academic past. Dr. Sadhan Kumar Dey from Department of ESM, explained the significance of applied linguistics and hermeneutics and showcase the conceptual framework for that. The program helped us to travel in reverse time-frame, and when we came back, the beautiful fragrance of enriched heritage may take a long-lasting impression in our mind.
